INDUSTRIAL WORKWEAR & COVERALLS

Industrial Workwear & Custom Coveralls

Built for maintenance, engineering, oilfield, and logistics crews across the UAE & GCC.

Archive production sample shown. Required safety or FR standards are specified per order.

PRODUCTION & SUPPLY SCOPE

Practical specs for field & workshop teams

01

One-Piece & Two-Piece Workwear

Coveralls, work shirts, and cargo trousers tailored to your operational brief.

02

Custom Branding & Trim

Reflective tape placement, company embroidery, and role/department identifiers.

03

Crew Accessories

Coordinated delivery bags and branded field waist pouches for mobile teams.

04

Buyer-Specified Standards

Garment fabrics and safety specs matched to your project's stated site requirements.

Note: A garment photo alone is not proof of safety certification.

5 DETAILS FOR AN ACCURATE QUOTE

Send a clear brief to speed up sampling & pricing

1. Garment Types & Team Roles
Specify coveralls, jackets, polos, chef coats, aprons, or PPE.

2. Approximate Quantities & Sizes
Share total headcount or estimated units per size/role.

3. Branding Method & Placement
Indicate custom logo embroidery or garment printing locations.

4. Site Safety Standards (If Applicable)
State required visibility, FR, or footwear standards for your site.

5. Delivery Location & Schedule
Confirm UAE emirate or GCC destination and target timeline.
